5590 SERIES SAE Class I 15" LED

The 5590 Series LED minibar features an innovative design combining Reflective and TIR Optic LED modules to provide superior 360° warning. The TIR Optic modules produce a highly intense, focused and long distance beam to the front and rear of the vehicle while the Reflective modules ensure optimum 360° coverage by producing a dispersed, wide-angle beam to the sides and corners. The 5590 also offers 18 flash patterns and permanent mount models can be synchronized to operate multiple lights alternately or simultaneously.
